In mathematics, an identity is an equality relating one mathematical expression A to another mathematical expression B, such that A and B (which might contain some variables) produce the same value for all values of the variables within a certain range of validity. In other words, A = B is an identity if A and B define the same functions, and an identity is an equality between functions that ...

Benne wafers Food historians tell us benne/sesame seeds were introduced to colonial-era America by West African slaves. The traditional use in that region was as a thickener for soups and stews. Not cake or candy. Confections composed of seeds and nuts originated in the Middle East (think: Medieval halva & brittle).Europeans overlayed local culinary traditions creating comfits and seed cakes ...
