We could define audiovisual translation as the translation activity that takes place in a context characterized by the interaction of oral or written text with sound and image. It is intended to be consumed through a screen. This includes both translation for dubbing, subtitling, and audio description.

Interest in audiovisual translation (AVT) as a proper object of academic inquiry has been growing steadily and exponentially for the last three decades. This paper starts with a discussion of the main developments that, propitiated by technology, are shaping the new digital mediascape and propelling AVT to take centre stage.

**(PDF) Review: Baños Piñero, Rocío  
and Jorge Díaz Cintas ...**

Audiovisual translation has an individual  
nature and presents its own issues.  
While, like any translation, it is a  
question of transferring the original  
message into another language as  
faithfully as possible, there are some  
significant differences to take into  
account. First of all, the source text is  
usually composed of oral dialogue or  
monologue
