In this tutorial i will be showing how to create a M10 Hex Nut using Autodesk Inventor 2020. Normally people create a polygon followed by extruding it and later creating a hole of 10 mm to design one, but that is not enough. We need to do the following steps of creating a polygon, extruding it, create a taper of 45 degree on the top and bottom surface followed by creating a hole and later ...

Inventor and 3D Printing 3D printing is quickly becoming the standard for prototyping. It's cheaper, faster, a heck of a lot easier then manufacturing a part, just to find out that hold needs to be 5 thou bigger. Trust me we've all been there. Remembering back to the old days of Inventor, trying to create a 3D print of your model was difficult.
