Variomatic is the continuously variable transmission (CVT) of the Dutch car manufacturer DAF, originally developed by Hub van Doorne. It is a stepless, fully-automatic transmission, consisting of a V-shaped drive-belt, and two pulleys, each of two cones, whose effective diameter can be changed so that the "V" belt runs nearer the spindle or nearer the rim, depending on the separation of the cones.

Notes. In cases where you are accessing single rows randomly within a table, the actual order of the data in the table is unimportant. However, if you tend to access some data more than others, and there is an index that groups them together, you will benefit from using CLUSTER. If you are requesting a range of indexed values from a table, or a single indexed value that has multiple rows that ...

The LDV range in Australia has expanded rapidly over its first few years of operation, expanding from the original V80 van and bus models to include the G10 van range and the G10 peplemover. LDV Automotive then hit the mainstream mindset with the T60 ute range and D90 seven-seat SUV, and those models have helped grow the company's presence locally - to the point where LDV has become a ...
