The chapters themselves contain the essential theory required to understand paleomagnetic research as well as illustrative applications. Each chapter is followed by a set of practical problems that challenge the student's understanding of the material. Many problems use real data and encourage students to analyze the data themselves.

System Dynamics Modeling: System dynamics (SD) is a tool for scenario analysis. Its main modeling tools are mainly the dynamic systems of differential equations and simulation. The SD approach to modeling is an important one for the following, not the least of which is that e.g., econometrics is the established methodology of system dynamics.

An ebook (short for electronic book), also known as an e-book or eBook, is a book publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent.
