Physics 12: Energy and  
the Environment.

Spring Term, 2013.

This course looks at  
the role that energy  
plays in our lives. We  
will first explore the  
physics of energy in its  
many forms, learning  
how

to calculate/estimate  
the energy content of a  
wide variety of  
systems. Then we will  
look at our sources of  
energy, addressing  
present and future

**Energy, Physics and  
the Environment /  
Edition 3 by E. L ...**

Much of physics is the study of energy and its transformation, and energy lies at the heart of important environmental issues. Climate is shaped by how the energy of the Sun affects movement of the atmosphere and oceans and how they in turn distribute
