### Golden Rule The Investment Theory

Golden Rule presents revised versions of widely read essays in which Ferguson advanced and tested his theory, including his seminal study of the role played by capital intensive multinationals and international financiers in the New Deal. The chapter "Studies in Money Driven Politics" brings this aspect of American politics into better focus, along with other studies of Federal Reserve policy making and campaign finance in the 1936 election.

### Golden Rule: The Investment Theory of Party Competition ...

The central foundational principle of the capitalist nation-state is that it is a reflection of its economic constituencies. Those who own and control the means of production shape the state in the form that they desire. This truism - that money runs politics - is the central argument of Thomas Ferguson's "Golden Rule."
