Guide To Pricing And Conditions

A pricing strategy is the method of pricing a business uses to determine how much to sell their goods or services for. It's one of the most commonly overlooked and undervalued revenue levers in business. Carefully selecting the right pricing strategy takes a deep understanding of your product, your market, and your customers.

The search engine processes the common qualifier conditions first, and only processes other unique qualifiers if the pricing request qualifies for the common qualifier conditions. For example, suppose you wanted to give a 10 percent discount with the following qualifying conditions.

Oracle Advanced Pricing User's Guide

If a business has a truly differentiated product they can charge a higher price for it. If your product is differentiated, your business can charge a higher price for it. Too often, small business people don't have a differentiated product or service, making it difficult to price their products as high as competitors.
