In many cases, the best setting is 'Direct' or 'Just-Fit,' which instructs the TV to show the video as it receives the signal. If you are using a DVD player or an old gaming system connected to the television, set the video to 4:3 (otherwise, the television will stretch the picture to the modern 16:9 ratio).

A laptop is a type of computer that is portable enough to be used while traveling. Most laptops share a similar clamshell form factor with the top lid of the laptop housing a display and the bottom section containing a keyboard and trackpad. The two sections are connected by a hinge and when you travel, you can fold the two halves together to protect the screen and keyboard.
