As geography became more and more specialized throughout the 20 th century, many sub-fields emerged, including cultural, social, urban, population, medical, economic, and political geography. However, today the field may be divided into two great branches: physical and human geography. Human geography focuses on people. Where are they?

### AP® HUMAN GEOGRAPHY: A STUDY GUIDE

Human geography has long had a reputation as a magpie discipline – scavenging the shiny ideas of other subjects, and making new uses of them. For many people working in human geography, this is a real strength; the openness or porosity of the subject means it is always transforming, morphing, moving in new directions.
