Patience is a virtue; you need to allow time for your team members to develop their creativity in the organization and to put their ideas together to find optimum solutions.

### Creativity in the Workplace | StartupNation

What makes a person creative? Creativity is defined by noted psychologist John R. Hayes as, "the potential of persons to produce creative works whether or not they have produced any work as yet.". In recent years, scientific evidence has revealed that mental cognition results from the dynamic interactions of distributed brain areas operating in what's called large-scale neural networks.
