The third column comes from a restricted list of phrases that describes the kind of MegaDots operation. Common MSG Commands. style -- the second column gives the MegaDots ...

MegaDots 2.5 Documentation

Rule 2: Numeric Signs and Symbols. Numbers are handled properly in the Nemeth translation. In Nemeth code, some numbers get the numeric indicator (dots 3-4-5-6), and some do not. The basic rule is that the numeric indicator is dropped when there is no chance for confusion with punctuation. There is nothing you need to do in this area.
