Modern Pace Handicapping, Revised: Brohamer, Tom ...
Brohamer used the Sartin methodology of pace handicapping to develop his own technique for handicapping horse races. His system considers running styles, turn times, track variants, energy distribution, and par times in predicting race strategy and outcome. Daily Racing Form charts (not seen) illustrate the book.

of modern Thoroughbred handicapping. Pace handicapping has been used by professional handicappers for decades because pace ratings tell them something that speed figures and final times can't - which horses will fade, and which can carry on to win. Ray Taulbot's Pace Calculator makes figuring pace ratings easy because it

Modern Pace Handicapping, Revised PDF - Book Library
The pace material in "Modern Pace Handicapping" is largely based on concepts developed by Howard Sartin and his group of dedicated handicappers, which included Tom Brohamer.

Pace Handicapping with Brohamer Figures - TwinSpires
Velocity handicapping (feet-per-second) has had a popular following for the last 20 years. Howard Sartin and his PIRCO group were instrumental in educating a large number of velocity handicappers during the 1980's. In 1991 Tom Brohamer wrote the definitive book on the subject with his Modern Pace Handicapping bestseller.

Paceline Selection What Method Works Best?
It is based on Tom Brohamer's best-selling book, Modern Pace Handicapping, published in 1991 by William Morrow & Company and thought by many to be the premier book on pace handicapping. This web-based software automates many tedious manual calculations and reports for evaluating pace that advanced players previously undertook by hand.

Welcome to The Thoroughbred Valuline

Turn-Time, when used with other pace and/or other handicapping information, is a very useful tool for assessing a horse's current form, for identifying and measuring its' competitive capabilities and for determining its likely performance in today's race. This is the power of the "Hidden Fraction".

Pace Handicapping with Brohamer Figures - TwinSpires
Pace figures — and I'm very partial to those that measure energy or effort rather than speed (think Tom Brohamer's energy pars from "Modern Pace Handicapping") — give players an edge in large part because they are not as cut and dried as speed ratings.
