What is a Chiropractor? - Spine-health

Typically the chiropractor asks you to indicate where you are experiencing discomfort by marking the areas on a drawing of the human body. What happens during the physical exam? The chiropractor will start with a routine physical exam, then follow it with an exam that focuses on the spine, with particular attention given to the areas of complaint.

joint, pushing it beyond its usual range of motion. You may hear popping or cracking sounds as your chiropractor moves your joints during the treatment session. After the procedure. Some people experience minor side effects for a few days after chiropractic adjustment.

Chiropractic adjustment - Mayo Clinic

Chiropractic is a pseudoscientific complementary and alternative medicine (CAM) that is concerned with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. Chiropractors, especially those in the field's early history, have proposed that such disorders affect general health via the nervous system. The main chiropractic treatment technique involves manual therapy, especially manipulation of the spine, other joints, and soft tissues, but may also
